Out Run EUROPA

Build on the experiences gained from "OUT RUN" our team is set to provide a new faster version with features that even the coin-op could not include. As you zoom through the countryside, your beautiful companion by your side, you will encounter new traffic hazards - parked cars, contrail systems and oil slicks. Try your skills at night driving with only your headlights to guide your way. Wrong turn? - Try reversing a Testarossa at high speed!

Available for C64, Spec. Ams, ST & Amiga.

THUNDERBLADE™

Thunderblade is a fast moving, all action game that puts you in control of an advanced helicopter equipped with incredibly accurate and sophisticated weaponry. This is the meanest fighting machine ever to hit the sides.

The key to the game is mastering the speed and agility of the helicopter on the dangerous mission the player will be faced with. The craft will out manoeuvre even the fastest jet fighter plane ever constructed - providing a far more varied game environment - practising run to sharpen your skills and familiarise yourself with the controls. Blast your way through a city of skyscrapers as the enemy constantly try and stop your perilous mission. Once through the war torn city and attack a huge heavily armed military ship. Then its onto a shoot out in a rocky canyon and dense tank formations. This is where your flying expertise is tested to its limits as you dive, hover and skillfully pilot your way through this fortified maze.

Now your problems really start as gunships constantly fire at you. Their only aim is to send you spiralling down to earth in a cloud of black smoke. If you survive this onslaught you will fly above and of the near force enemy aircraft you will imagine - and its a battle of the bitter conflict! These are just some of the helicopter pilot and witness the ultimate realism of the incredible graphics that all to give you a view from above to frontal.

U.S. Gold has maintained its policy of selecting a top arcade game that will not only attract the attention of the home computer. It will be a truly representative version of the game. The game has proved to be a huge success for Sega and is all set to maintain its track record with the home computer version.

OFFICIAL Advanced Dungeons & Dragons COMPUTER PRODUCT

Currently S.S.I. and U.S. Gold are developing a range of products which will form part of the Official Advanced Dungeons & Dragons computer license, recently acquired by both companies and which will run until 1992, when many varying computer games will be available. The first games, Pool of Radiance and Heroes of the Lance will be available by Christmas.

POOL OF RADIANCE, is a role playing adventure set in the Forgotten Realms worlds; the scenario is centred around the small but growing city of Phlan, on the shores of the Great Moon Sea. Apart from the overall goal of the game, S.S.I. have devised a number of sub-plots, which adds to the appeal of the game. Graphics have been enhanced and will include animated sequences as well as 3-D perspectives to add feel to the adventure.

HEROES OF THE LANCE currently under development by U.S. Gold, is an action game, which is based on the Dragon Lance Saga and set in the sunken city of Xak Tsaroth. The objective is to guide a party of eight adventurers through the ruined corridors and to discover the location of the Disks of Mishakal, but first you face the many monsters, such as Bozak Draconians, giant spiders and the final conflict with Khisanth, the Black Dragon. This game is full of arcade style action with just a hint of strategy and will truly appeal to the arcade game player.

Both **HEROES OF THE LANCE** and **POOL OF RADIANCE** will be available before Christmas, with a special preview at the forthcoming P.C. Show (nee PCW Show) to be held this year at Earls Court in London. Next year will see more products from S.S.I. for the Official Advanced Dungeons & Dragons license: two products which look especially exciting are a Dungeon Masters Assistance program, which will assist the D.M. in setting up campaigns and will literally save hours of work.

The second, Hillsfar, is an interactive video style product, which will capture stunning graphics and animated routines. The game will allow the user to train their characters, to give them more experience and then transport them to other new S.S.I. games. More details will be published in the next Bulletin, together with any new development.

In the mystical world of Krynn an epic battle rages between the forces of good and evil. Eight brave companions enter the treacherous ruins of the temple of Xak Tsaroth seeking the precious Disks of Mishakal – the only end to this infernal struggle. Draconian monsters, skeletal undead, powerful magic and countless other terrors face the adventurers but the way is barred by the ancient black dragon, Khisanth. Find the key to destroy Khisanth or you are doomed to failure.

FANTASY ROLE PLAYING

The fabled city of Phlan has been overrun by monsters – your quest: discover the identity of this evil force. No detail is missed, 6 player characters, non player characters, the Adventure's Journal packed with history, maps and clues, and the Translation Wheel. The gameplay is exhilarating and the graphics state-of-the-art portrait displays, 3D-perspective, tactical combat display and personalised weapons: the ultimate breakthrough in fantasy role playing computer games.

ECHELON

on the other side there are world's beyond imagination
on your side there is a spaceship beyond belief take a step into the unknown.

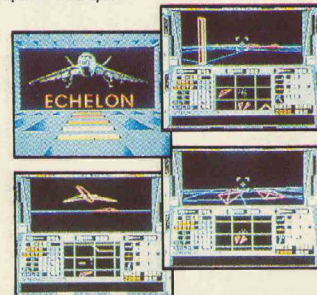

ACCESS

Set in the distant future, Echelon is the code name for a top secret military installation located on the planet Isis. It was established by the International Space Federation (ISF) to stop attacks on shipping and mining operations by space pirates. Only top military personnel are assigned to Echelon.

The best ISF pilots will be trained to operate the 21st Century's most advanced spacecraft, the C104 Light Cruiser code named Tomahawk. The C104 is a patrol vessel designed for planetary exploration and combat and comes with the very latest weaponry and scientific equipment.

As a top ISF pilot, you are given command of a C104 Tomahawk and stationed in patrol zone 106. Yours is the only patrol craft in this zone, and you must fly daily reconnaissance missions and search for artifacts and clues that may reveal the location of the space pirate stronghold. Echelon has been designed to offer much more than any other computer game. It can be played strictly as a flight simulator, an exploration adventure, an arcade game or as a combination of all of these – the choice is yours.

Echelon excels as a flight simulator as it puts you behind the controls of a combat and exploration vehicle. The 3 dimensional view recreates the thrill of real flight. Fly and land anywhere inside the patrol zone. You will find the mastering of the Instrumentation both challenging and satisfying. There is also a unique feature that actually lets you fly 'remote control'. Using your Remote Patrol Vehicle (RPV) you can control and view your spacecraft from the outside. You will be able to see yourself flying through the depths of outer space.

Once you have mastered the controls of this superb craft you can try your skills against enemy spacecraft. There are six different levels of enemy strength allowing you to increase the difficulty level as your skills improve. Time is also your enemy, but success is rewarded with combat points. Because Echelon is a simulator you can choose to fly anywhere inside the patrol zone. If the assignment of locating the pirate Base is chosen you will need all your logical and strategic powers. Echelon uses more memory than any other Access product. For the CBM 64 there is the option to purchase a unique firing system. Whilst flying the spacecraft with the joystick, you may find it would be easier to have a separate firing facility. It is for this reason that Access have devised an exciting new voice activated control headset, so the firing action is made so much easier – all you have to do is say FIRE!

IS IT REAL?...

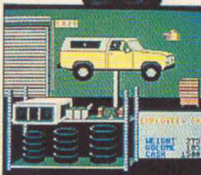

This is not just another race game—**4x4 Off Road Racing** has more obstacles, more realistic controls, and more gritty fun than those traditional roadgames. In this rough and tumble competition, you will be able to choose your own rig and load it up with just the right gear for the variety of terrains you will encounter. As the driver, you'll find weight makes all the difference when clawing over hills, bogging through mud holes and motoring through both feverish and frigid temperatures. You will battle the screamin' demon truck that can come out of nowhere and wreck a perfectly bumpy ride. Keep all this in mind as you thunder through a multi-race season filled with truck-gutting obstacles and die-hard opponents. You have total control over all aspects of the race including truck choice, terrain, gear and driving technique. Load up rigs with spare tyres, food, water, petrol—maybe even an on-board mechanic. Four exciting courses: The Baja Challenge, The Michigan Winter Wreck Off, The Death Valley Race and The Georgia Mud Fest await you. **WATCH OUT FOR 4x4 BECAUSE YOU ARE IN FOR THE RIDE OF YOUR LIFE!**

If you thought the Games Series could not get any better—just look out for the Games Winter Edition, you will be amazed!!

You will fly like a bird in the ski jump, double your blood pressure shooting down the chute in the Luge—an Olympic event that's a superstar version of tobogganing! Lean into a 30 mile an hour turn in the oval-track Speed Skating. Cross your threshold of pain in the cross-country event, choreograph a few figure skating routines, find out what it's like to be a human shock absorber in the Giant Slalom, and go from 0 to 60 in the lightning fast downhill. Plus, thanks to a new feature on the downhill, you can set up your own cameras and monitor your own performance just as if it were network TV covering the event. You will find there will be brand new graphics, brand new camera angles and better athlete control options. As in the previous games, you will have the option of having up to eight players or one player can compete against the computer.

THE GAMES

THE GAMES SUMMER EDITION CONTAINS 8 EXCITING EVENTS DESIGNED TO TEST YOUR COMPETITIVE SKILLS TO THE LIMIT—AND BEYOND!

You begin your run, feet thumping and heart pounding as you prepare to spring into the air in the **POLE VAULT**. A tough and demanding sport that not only relies on speed and strength but also timing and dexterity. Ever tried a circular swing, a salto turn or even a long hang kip? Now's your chance in the **LOWEN PARALLEL BARS**. Work out your own routine and make for a high score as you are marked on the smoothness of motion. Discover that the **CYCLING** event is by no means a joy ride! Wait for that pistol shot, race your competitor and hear the screech of rubber as your tyres touch and the scrape of pedal on the ground as you bank into a steep turn. Jockey for the trailing position then gather your speed and burst through to the finish line! It's your muscle power and momentum that carry you through the **HAMMER THROW**. See your hammer fly through the air to cover the longest distance and score an unbelievable throw! Then, it's on to the **DIVING** event where your agility and grace will be put to the test. A smooth execution of your dive, good height and clean entrance to the pool will make you a certain winner! Speed and stamina will be needed to take part in the **HURDLES** event. One split second break of your rhythm will send you crashing into the hurdle and falling to the ground. Draw back your bow, aim and then release and watch your arrow head for the bulls-eye in the **ARCHERY** event. If you don't have nerves of steel, you'll be left quivering! Be prepared to illustrate your strength and control in the **GYMNASTIC RINGS** event. Perform a sequence that will incorporate inverted hangs, shoulderstands and pikes and you'll capture the admiration of the crowd—as well as the judges!

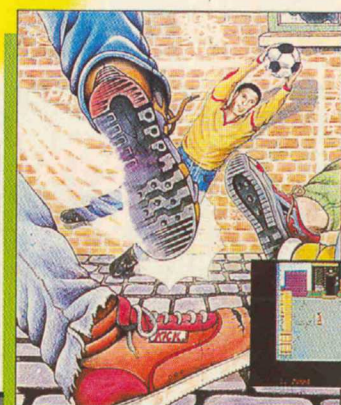

Epyx have had some very memorable releases over the years—among them are California Games (winner of the best overall game of 1987 in Zzap 64) Winter Games, and World Games, all of which have set a world standard in sports simulations. The Epyx pedigree is very strong and still developing. The success story continues with the forthcoming releases planned for the remainder of the year. Here are just a few of them to wet your appetite!

FINAL ASSAULT

Now, armchair adventurers everywhere can take the challenge to conquer nature's unknown in **Final Assault**. Pack your rucksack choosing from over 50 items, including climbing gear and food supplies. Test your mettle on slick icy glaciers, snowy slopes and crevasses, and treacherous rockfaces. There are six different trails and three difficulty levels. Beginners can practice on the training course; on screen features include the temperature, time and altitude, and a safety guide to aid players on their trek. This entertaining and exciting sports game, with design input from world renowned mountain climber Eric Escoffier, is a guaranteed peak performer for your home computer.

STREET SPORTS SOCCER

Last year in June, U.S. Gold won the licence to manufacture and distribute Epyx home computer products throughout Europe. It is now possible for the real computer enthusiast to play original Epyx products anywhere in Europe from Barcelona to Berlin. To celebrate this venture, Epyx have introduced a European flavour to their celebrated Street Sports series, with Street Sports Soccer. Choose a three person team from nine of the toughest kids around and then execute all the moves of an international pro, like passing on the run, heading the ball and shooting at the goal. Play in the street or kick up the mud in the local park. Play against a friend's team or the computer, against the clock or up to a preset score, with the choice of 3 levels of difficulty. This exciting new fun filled game allows you the chance to master the skills of this European sport in the toughest environment—ON THE STREETS WHERE THE ACTION REALLY IS!!

THE £2 MILLION ARCADE SPECTACULAR!

THE RED HOT NEWS FROM U.S. GOLD'S HI-TECH OFFICES IS THAT THE COMPUTER CONVERSIONS OF ARCADE CLASSICS FROM THE JAPANESE GIANTS CAPCOM ARE NEARING COMPLETION.

TIGER ROAD™

Just before Christmas, a £2 million pound deal was signed with Japan's top arcade machine producers which will bring no less than ten top arcade titles into your home. The first four conversions Streetfighter, 1943, Black Tiger and Tiger Road are well on the way. Versions for the Commodore 64, Spectrum, Amstrad, Atari ST and Amiga are being produced in this country by U.S. Gold's top programmers.

It will be no mean task to defeat the evil minions of Ryu Ken Oh in this exciting martial arts arcade adventure. Karate games are well proven in the arcades and Tiger Road breathes new life into this theme. Based on an actual ancient Chinese fable, the plot goes like this. Ryu Ken Oh, the baddie, has been raiding villages and kidnapping children. He intends to brainwash these poor kids and turn them into soldiers for his evil army. The master of the Oh Rin temple has ordered his best student, Lee Wong, (that's you!) to save the children and defeat Ryu Ken Oh! To do this Lee has to complete many hazardous levels, each with a big bad enemy at the end. To aid his quest, Lee has a magical jacket which helps him jump and fly, plus special weapons

like the Chains and Sickle, a spear and the Snake weapon. Hordes of Samurai warriors make your journey difficult. They come at you from all angles, swinging vicious curved axes. Beat them off with your weapons or with a well aimed karate kick. Beware of giants, ninja warriors flying on hand glider contraptions, rolling boulders and awesome Dragons and acrobatic Sumo Wrestlers! The arcade game begins outside a ruined temple. Apart from the Samurai warriors there is a large man sitting on top of the ruins who takes pleasure in sticking a large pike into your body from time to time. You have to make good use of Lee's jumping skills here to leap onto the ruins and give this nasty pikeman a taste of your sword. The next section pits you against a giant. You have to time your attacks perfectly - if you let the giant get too close he'll grab you by the neck, half strangle you and throw your crushed body across the screen! If you manage to survive this beast the ordeal of the rolling stones begins. No, we don't mean having to listen to Mick and the boys. These rolling stones are much more deadly. Again timing is vital as you must leap these boulders to avoid being squashed. Once you leap the last rock you find yourself in a cell with an infuriated Sumo wrestler. He is quite an acrobat and attacks by climbing up the walls and swinging across the ceiling. The arcade game is very big and has many levels - including a forest scene with ferocious flying dragons.

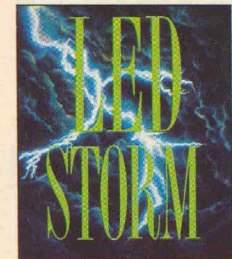

BLACK TIGER™

Long ago, three evil dragons descended from the skies and destroyed a kingdom, bringing a nightmare of darkness and destruction and decades of evil to this once bright and glittering world. From this suffering kingdom emerged a great and brave fighter, determined to bring back light and goodness to the world. His name? Black Tiger. His quest? To destroy the three demonic dragons!

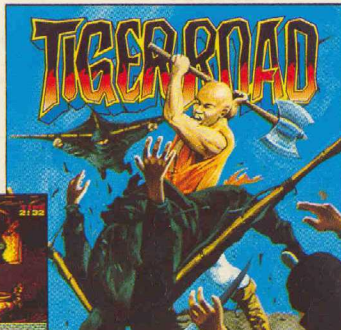

Play Black Tiger and you enter a sinister world of dragons and demons. All the elements of true fantasy adventure are packed into this different and absorbing coin-op. Black Tiger is a Conan style figure, battling evil in a fantastic world. As he travels through and under this weird world Black Tiger must battle the many different monstrous minions of the dark dragons. Fortunately, there are people who will help our hero - the wisemen. The bad news is that Black Tiger has to rescue these poor spellbound creatures before he can enlist their assistance. Some Wisemen will tell Black Tiger extra armour or weapons. How does he purchase these things? By earning 'zenies'. How does he earn 'zenies'? By defeating enemies or saving Wisemen, that's how! Black Tiger will need all the extra armour he can get to be successful in the final great battles against the three dragons which come at him one at a time. He loses armour when enemies hit him - enemies like the ugly axe-wielding goblins and other mean mutants. Each level has to be completed within a time limit - but Black Tiger can gain extra seconds by saving the Wisemen turned to stone by the dragons. There are several different routes to the ultimate conflict - but arrows point the way from screen to screen. You can ignore them but you might find yourself faced with a dead end and be forced to fight your way back to an exit. There are cheats which you can open, special characters to capture, and many obstacles to overcome.

Black Tiger is a very different type of coin-op game and will appeal to Dungeons and Dragons addicts as well as out and out arcade freaks! Capcom said that Black Tiger gets more exciting the more you play - and we can't argue with that. Put a Tiger into your computer today!!

L.E.D. STORM™

This is the coin-op conversion of what is likely to be Capcom's biggest hit of 1989 in the arcades of the world. You take the wheel of a supersonic car that has unbelievable power and incredible weaponry. Combine the best features of Out Run, Roadblasters and Spy Hunter and you will just be able to imagine how good L.E.D. Storm really is!!!

GIANTS OF THE VIDEO GAMES INDUSTRY

C. & V.G.'s arcade expert Clare Edgely said "Tiger Road is a must for all martial arts fans. We are sure you'll think the same about the computer versions."

TAKE THE PEPSI CHALLENGE!!

Pepsi will be throwing down the gauntlet to millions of computer games fans throughout the UK and Europe with their own series of Pepsi Challenge computer games.

THE PEPSI CHALLENGE

THE TASTE OF AMERICA

To celebrate the biggest consumer product association that the computer games industry has ever seen, U.S. Gold will be releasing a Pepsi Cola Compilation called "The Taste of America".
